Profile

Multidisciplinary product designer and developer with 10+ years of experience building digital products, SaaS platforms, UX/UI systems, branding ecosystems, and high-impact visual communications. Proven experience with Amazon Web Services, Texas Tech University, Olavivo / Cielo Digital, and international clients across SaaS, fintech, education, affiliate marketing, and e-commerce. Combines product strategy, visual design leadership, modern web development, cloud infrastructure, and AI-assisted workflows to deliver scalable solutions with measurable business impact.

Professional Experience

2014	Founder & Freelance Product Designer / Full-Stack Developer Independent Consultant - Global Clients - Delivered 100+ digital projects for 50+ clients across SaaS, fintech, e-commerce, education, and enterprise environments. - Built end-to-end digital products from product strategy, UX/UI, and branding through development, deployment, and optimization. - Developed scalable web platforms using Next.js, React, TypeScript, PostgreSQL, AWS, and modern cloud services. - Created conversion-focused websites, product experiences, visual identities, and motion assets aligned with business growth goals.
2024 – 2026 Remote	Senior Visual Designer / Senior UX Designer Olavivo / Cielo Digital - Led UX/UI, visual design, web experiences, branding assets, and motion graphics for digital marketing and affiliate initiatives. - Designed multilingual websites, media kits, landing pages, campaigns, social content systems, and conference assets. - Partnered with cross-functional stakeholders to strengthen visual consistency, usability, and conversion-oriented communication.
2023 – 2024 Costa Rica	Senior Visual Designer Lead Texas Tech University - Led visual strategy, branding, digital campaigns, and creative execution across institutional programs and recruitment initiatives. - Contributed to a 50% enrollment increase during the first months following the implementation of updated branding and marketing assets. - Supported campaigns that generated record lead volume while maintaining brand consistency across digital and traditional channels.
2022 – 2023	Visual Designer - AWS CFO Office & AWS Fintech Amazon Web Services - Created executive-level visual communications, motion graphics, video content, presentations, and web experiences for AWS organizations. - Collaborated with senior stakeholders across finance and technology teams to translate complex subjects into clear visual narratives. - Delivered quality-first work under tight deadlines with visibility among directors and executive leadership.
2018 – 2023 Costa Rica	Digital Content Designer / Trainer Assistant / Technical Support Amazon - Produced motion graphics, web experiences, UX/UI assets, video editing, and instructional content for internal programs and digital initiatives. - Managed live learning and performance metrics across multiple countries, delivered training, and supported continuous improvement projects. - Provided technical support to corporate employees and contributed to digital content quality, testing, and application reliability.
2012 – 2016	Director of Marketing Los Cabos Drumsticks Developed marketing strategies, creative campaigns, and content aligned with
